

Metapuzzle Solution
Regular #6

Meta-Synonyms Solution

This portion of the "über"-puzzle is stationary, which can be quite shocking actually. One might entitle it _____. But we would rather not, as it could make the answer quite lethal.

Another word for stationary is "static" which can also refer to static electricity (and thus shocking). So if this clue is static, it could be titled Meta-Static. Metastatic refers to cancer that has spread from its original site to other regions of the body. Metastatic cancer is usually lethal.

Instead, it is more fun to think of the Oompa Loompas' owner's family Levi's.

Oompa Loompa's owner's family Levi's == Wonka Jeans → Onca Genes (cancer-causing genetic code)

However, be careful to avoid the first half of Tonto's friend at counseling.

First half of Tonto's friend == Kemo(-Sabe) + counseling == therapy → Chemotherapy (cancer treatment)

If you run into Barry Bonds and Willie Mays riding the public transportation in Chicago, be prepared to purchase a burial vault and plenty of raw material to build the iron-work.

Barry Bonds and Willie Mays == Giants + Chicago Transportation == "L" + burial location == tomb + material for iron-work == ore → Giant Cell Tumor

If worse comes to worst, one could always climb that tall pole on a sailboat, grab something you might find in a crow's nest, and keep a child's stomach full.

Tall pole on a sailboat == Mast + something in crow's nest = Egg + child's stomach == Tummy → Mastectomy (removal of cancerous breast tissue)

*you only need to solve one

because if you get even one, you will think of **CANCER**
